

IT GOVERNANCE, AUDIT & REVIEW with DIAXION

● vCIO

A trusted adviser engagement that provides our clients with skilled resources on-site, on either a permanent or part time basis to help manage daily operation, execute roadmap developed by the organisation and/or Diaxon. Governance - Understanding current new and updated governance structures across IT Strategic Executive Advice - Confidential advice and support for the CIO in making decisions and setting direction.

● IT STRATEGY

Providing actionable strategy that is clearly aligned to your organisations business goals. Starts with the question; 'What do you want to achieve in line with the organisation goals?'. The process identifies opportunities to deliver added value or operational efficiency through the organisation.

Business unit strategy - what are the business unit needs to support the overall organisation.

Technology Assessment - External evaluation of particular technology.

IT Agility - Advice and help in moving to an 'IT as a Service' model.

RFx - Preparation, assessment and review of "Request for..." documents. Independent advice and review to save time and unnecessary expense.

● ENTERPRISE ARCHITECTURE

Enterprise Architecture - setting, reviewing and updating your enterprise architecture. Diaxon uses a capability based approach that is independent of organisation structure and based on the business architecture of the organisation.

Value chain mapping - takes the capabilities and links them together.

Architecture governance - making the process successful, simple and maintainable.

IT Infrastructure Audit - broad or narrow audit to help identify areas for deeper dive.

Quality Assurance - on projects, roadmaps, assessments, to ensure quality, business alignment, benefit realisation and direction change.

SaaS suitability - what is the fit to the organisation?
